**OLIVERA
COLLECTION**

Hug Collection

*The new **HUG** chair collection is made entirely from second-life materials. There are two variants: an all-technopolymer version, perfect for outdoor environments, and a softer one with the addition of a seat cushion and padded band covered in fabric, even more enveloping.*

Table **Tavolo Squid** · stone effect top / 210x100 · art. 2431

Squid comes from the need to create a versatile table according to the top, adaptable to different environments, and therefore available in various shapes and sizes. The fulcrum of the project is the die-cast aluminium leg, which, combined with metal frames of different shapes and sizes, gives life to a large and diversified collection of tables.
